

Team Involvement in Demonstration

HDI Prediction System — Project Demonstration Phase

Overview

All five team members contributed to building the HDI Prediction System and are involved in preparing and supporting the final demonstration.

Demonstration Roles

Team Member	Demo Role
Farzana Shaik (Team Lead)	Leads the live demo, presents the solution end-to-end
Chinthoti Raghavendra	Explains dataset collection and EDA findings if asked
Ahmad Kabir Shaik	Explains model training and evaluation results
Naga Sireesha Naralasetty	Explains data pre-processing and feature preparation
Sitha Ramaraju Velisala	Explains Flask application and UI implementation

Collaborative Preparation

- All members reviewed the demo flow together before the presentation.
- Each member is prepared to answer questions related to their part of the project.
- The Team Lead coordinates the overall flow and handles unexpected questions.

Team Contribution Summary

This shared involvement ensures every team member can speak confidently about the part of the HDI Prediction System they built, reflecting genuine collaborative ownership of the project.
